## PROFILE

A professional Aircraft Structure Technician with 8+ years of proven track record in both local and international aviation industry. Experienced in carrying out fabrication, installation, repair, replacement, and maintenance on the aircraft/engine/components. Versed in handling various types of aircraft (Airbus, Boeing, ATR). Skilled in project management, team collaboration, communication, problem-solving, and analytical thinking. Highly passionate about enhancing my professional career and contributing to the aviation industry.

## PROFESSIONAL EXPERIENCES

### Emirates

*Aircraft Structure Technician*

*Nov 2023 – Present*

- Carry out routine aircraft/engine/component service, maintenance, and approved structural repairs compliant with manufacturers' procedures whilst observing all safety procedures for fluid replenishment, aircraft refueling, and aircraft systems charging/servicing as required.
- Complete any component replacement and other maintenance activities as directed by the Supervisor, including the Aircraft Maintenance Manual (AMM), Illustrated Parts catalogs (IPC), Component Maintenance Manual (CMM), and other approved documentation required to carry out the task.
- Assist Licensed Aircraft Engineers in troubleshooting, defect rectifications, and modifications while performing work instructions contained in the job cards.
- Contribute to implementing safety guidelines, highlighting any deficiencies/failures, and minimizing accidents.
- Maintain vigilance, safety, and cleanliness, in the work areas (including the ramp), vehicles, stands, and lockers are free of FOD such as auditing toolboxes regularly and communicating safety shortfalls.

### FL Technics Indonesia

*Aircraft Structure Technician*
