Dear Dr. Muhammad Zainuddin Lubis,

We received the manuscript. Some time is needed for a preliminary evaluation and then you will have an answer.
Thank you very much!

With best regards,
Claudiu Gavriloaie, PhD

Dear Dr. Lubis,

I have to send you back the paper, because there are still few important comments you simply ignored. We do not work like that. All the comments were made for serious reasons and need to be addressed for sure. The most important one is the Discussion section. You will see more details in the document attached.

There are also some parts with a very bad English. It is very obvious that you worked for yourself at that parts, without the help from a professional English speaker. Please ask for help!

Then, you added few references in text, but you did not edit them in the list according to the journal format. I did it for you. And I made the correct quotations. For example, you have now 2 papers of Lubis et al 2017 and three papers on Lubis et al 2018. In order to make a distinction between them, I noted them 2017a, 2017b, 2018a, 2018b and 2018c, and I make the correct quotations.

Send me the final form only after you really address all the remained comments. Work only in attached paper and use red color to highlight the changes you will do. Since you will have to add some Discussion, there will be some new references both in text and the list. So, make sure you will edit all the new references following the journal format. Or simply see how I did for the rest of the list.

So, please address all the remained comments. I already exchanged with you 41 messages, which is huge. I deal with more than 100 papers. Just imagine what would mean to exchange so many messages with all the authors. I will get crazy in few weeks.

Thank you!

Yours,
Claudiu Gavriloaie

Dear Dr. Lubis,

Please highlight all the changes somehow so I can easily spot them. I already asked you that. Otherwise I would have to check the whole paper line by line again. And I am on vacation now. So, I would really appreciate to highlight the changes.
Thank you!

Yours,
Claudiu Gavrioloie

Dear Lubis,

I am sorry for taking long to get back to you. I had some issues! However, your article is nice! Most of the grammar is alright! I tried to make a few comments following the reviewer's recommendations. (See my comments start with T20, T29..).

Follow the other comments made by the reviewer especially where he recommends paraphrasing the sentences for clarity!

Dear Dr. Muhammad Zainuddin Lubis,

First, there are some Indonesian words, that is why I cannot fully understand your message.

Then, I have no idea to what paper you refer. I have no recent paper from you.

If it is about the paper "[Mapping of seabed target and TIN modeling using hydroacoustic methods in Piayu waters, Batam](#)", it has been published long time ago, in 2019: [Lubis M. Z., Pamungkas D. S., Pujiyati S., 2019 Mapping of seabed target and TIN modeling using hydroacoustic methods in Piayu waters, Batam. AACL Bioflux 12\(4\):1349-1357.](#)
